SKIN AESTHETICS & RELAXING FACIALS

Amazing skin is possible when you know how! There is no need to hide behind makeup to cover your skin nightmares.

As Brand Ambassadors for Alumier md skin care we use products that are key to helping you achieve confidence in how you look.

Don't forget about the surface of your skin! Injectables may act as the scaffolding underneath, but a clear, smooth hydrated complexion speaks volumes PLUS skin peels may also add strength and tone, therefore preventing the need for invasive options.

Please note that our peels require no recovery time. These clinical treatments can be carried out in the middle of your day without worrying about how you are going to look afterward. However, if you prefer we can apply a fine layer of mineral makeup at the end of your skin treatment at no extra cost. Please ask your skin specialist at the beginning of your treatment.

SPRAY TANNING

Don't you just look amazing with a tan! Let's face it, a tan can really create a perfect base for your make up to look fantastic and it seems to make the "peely wally" wobbly bits look pretty good too, yet such a faff to do yourself. Well now you don't need to!

For over the last twenty years we have been spraying tanning the gals of Glasgow to look like they have just returned from an exotic holiday. We have tried all different brands over the years, but keep returning to our favourite St Tropez for a first class tan. St Tropez offer a classic natural tan, a deep golden tan and an express tan for those who need to wash off after a few hours.

HALF BODY TAN	£25.00
FULL BODY TAN	£35.00
